

# CHIRAG MODI

## DATA ANALYSIS

✉ modichirag.k@gmail.com ☎ 9773059145 📍 Kim 🌐 abcddev.com

## PROFILE

Proficient in Python, SQL, NumPy, Pandas, and Data Visualization. Strong analytical and problem-solving skills with a passion for working with data and deriving meaningful insights. Eager to apply technical knowledge and learn in a professional Data Analyst role.

## EXPERIENCE

### Mern Stack

2024-01 — 2024-06

WeClocks Technology Pvt. Ltd.

Worked as a MERN Stack Developer Intern, where I developed and maintained web applications using MongoDB, Express.js, React.js, and Node.js. Assisted in creating responsive user interfaces, developing REST APIs, managing databases, and integrating frontend with backend services. Collaborated with team members to debug issues, improve application performance, and implement new features while following software development best practices.

### Data Analyst

2025-12 — 2026-06

Codeat Infotech

Completed a Data Analyst Internship where I gained hands-on experience in data cleaning, data analysis, data visualization, and report generation using Python, Excel, NumPy, and Pandas. Analyzed datasets to identify trends and provide actionable insights for decision-making.

## EDUCATION

### computer

2019-01 — 2022-01

Shree Dhanavantary college of engineering and technology

### Computer science and engineering ai and ml

2022-03 — 2025-12

Shree Dhanavantary college of engineering and technology

## EXPERTISE

SQL · Numpy · Python · Pandas · Power Bi · Git · Mean stack

## NOTABLE PROJECTS

### School Performance Analytics Dashboard

Python, NumPy, Pandas, Power BI, Power Query, Excel,Sql

Developed a School Performance Analytics Dashboard using Python, NumPy, Pandas, and Power BI to analyze student academic performance and attendance data. Collected, cleaned, and transformed raw datasets using Pandas and NumPy, performed data analysis to identify trends and patterns, and created interactive dashboards in Power BI. Designed visualizations to track student performance, attendance rates, subject-wise results, and class-wise comparisons. Generated actionable insights through KPIs, charts, and reports to support data-driven decision-making.

### E-Commerce Sales Dashboard

Power BI

Designed and developed an interactive E-Commerce Sales Dashboard using Power BI to analyze and visualize sales performance, profit trends, customer behavior, and product performance. Imported, cleaned, and transformed data using Power Query, created data models, and developed DAX measures for KPI calculations. Built interactive visualizations, including sales trends, profit analysis, top-selling products, customer segments, and regional performance. The dashboard enabled stakeholders to monitor key business metrics and make data-driven decisions efficiently.
